   3. Clinical Assignment Nature- students need to be prepared. Their clinicals need to include interaction. The online program could be an issue, needs to be looked into.
   4. Praxis II and Licensure- while it is not currently required for students to take to get licensure, we need to highly encourage students to take it. It will only help them in the long run.
   5. Task Stream- try to stay on top of your students assignments on here. It is helpful to compare the class roster to the turned in assignments. The students will need this later for evidence.
